

This is a digital copy of a book that was preserved for generations on library shelves before it was carefully scanned by Google as part of a project to make the world's books discoverable online.

It has survived long enough for the copyright to expire and the book to enter the public domain. A public domain book is one that was never subject to copyright or whose legal copyright term has expired. Whether a book is in the public domain may vary country to country. Public domain books are our gateways to the past, representing a wealth of history, culture and knowledge that's often difficult to discover.

Marks, notations and other marginalia present in the original volume will appear in this file - a reminder of this book's long journey from the publisher to a library and finally to you.

### Usage guidelines

Google is proud to partner with libraries to digitize public domain materials and make them widely accessible. Public domain books belong to the public and we are merely their custodians. Nevertheless, this work is expensive, so in order to keep providing this resource, we have taken steps to prevent abuse by commercial parties, including placing technical restrictions on automated querying.

We also ask that you:

- + *Make non-commercial use of the files* We designed Google Book Search for use by individuals, and we request that you use these files for personal, non-commercial purposes.
- + *Refrain from automated querying* Do not send automated queries of any sort to Google's system: If you are conducting research on machine translation, optical character recognition or other areas where access to a large amount of text is helpful, please contact us. We encourage the use of public domain materials for these purposes and may be able to help.
- + *Maintain attribution* The Google "watermark" you see on each file is essential for informing people about this project and helping them find additional materials through Google Book Search. Please do not remove it.
- + *Keep it legal* Whatever your use, remember that you are responsible for ensuring that what you are doing is legal. Do not assume that just because we believe a book is in the public domain for users in the United States, that the work is also in the public domain for users in other countries. Whether a book is still in copyright varies from country to country, and we can't offer guidance on whether any specific use of any specific book is allowed. Please do not assume that a book's appearance in Google Book Search means it can be used in any manner anywhere in the world. Copyright infringement liability can be quite severe.

### About Google Book Search

Google's mission is to organize the world's information and to make it universally accessible and useful. Google Book Search helps readers discover the world's books while helping authors and publishers reach new audiences. You can search through the full text of this book on the web at <http://books.google.com/>

# ANNUAL ARCHITECTURAL REVIEW. 1891.

*Ideal Sketch, OTTO RIETH, Architect, Berlin.*

# EQUITABLE

## LIFE ASSURANCE SOCIETY.

Established 1762. On the Mutual Principle, whereby all Profits belong to the Assured.

THE INVESTED FUNDS NOW EXCEED £4,250,000.

1. No Commission or Agency Fees.
2. Ordinary Working Expenses under 3 per cent. of Annual Income.
3. Claims paid immediately on Proof.
4. Interim Bonuses paid: the Present Rate being £2 per cent. per annum.
5. Policies World-wide in ordinary cases after Five years' duration.
6. The full Reserve Value of Policies paid on Surrender. The Surrender Value of a Policy (with Bonus Additions) which had been in force for twenty years (on a Life aged 30 at entry) at the Last Division of Profits *was 10 per cent. more than the whole of the Premiums paid.*
7. Under a new system part only of the Annual Premium need be paid, while Full Protection and Participation in Profits are secured.

### Distribution of Profits, January 1, 1890.

Total Bonus Additions to a Policy of £1,000.

### IMPORTANT TO ARCHITECTS.

Drawings or Photographs sent to the Editor for insertion must not have been already published, but there is no objection to their reproduction in other publications after the year's issue of "Academy Architecture." The Editor cannot bind himself to illustrate any subject even if he has specially asked for it.

Drawings are much preferable to Photographs, which should only be sent in cases of emergency.  
Contributors will receive 25 Artist's Proofs free.

ALEX. KOCH, Architect,

58 Theobalds Road, London, W. C., England.
